# LOGISTICS:

The following are minimum requirements for a safe, problem-free performance.

- **Access:**

The Artist requires access to the performance area at least **three hours** prior to start time and at least one hour after finish time. Artist requires easy access to stage for loading and elevator if the stage is on a different floor, unless cleared by artist in advance.

- **Area:**

Minimum stage requirements are a 15-foot wide by 10-foot deep area for setup, plus space for speakers and lighting stands unless provided and then N/A.

- **Power:**

Power requirements for the PA are two **UNSHARED 15-amp, 120-volt outlets** from a reliable power source within 30 feet of the set-up area. An additional **UNSHARED 15-amp, 120-volt outlet** on a separate circuit (different breakers) is required for stage lighting if it is being used. **Minimum of two UNSHARED 15-amp, 120 volt outlets.**

- **Exposure:**

The facility should completely cover and protect the band's equipment from adverse weather conditions, including direct sunlight, rain, excessive winds, etc. Outdoor shows require at least a 10-foot by 20-foot EZ-Up tent with sides that roll down.

In the event of inclement weather during an outdoor show, The Artist will not under any circumstances perform in any exposure to the rain or during any kind of electrical storm. In this event, continuation of The Performance will be postponed until conditions have cleared to the satisfaction of The Artist.

- **Flooring:**

Sound equipment cannot be safely set up on uncovered ground. Minimum flooring requirements for an outdoor show are plywood sheets with some kind of covering securing them in place (carpet, rug, etc.) set up on level ground and approved in advance by The Artist.

- **Lights & FX:**

Please refrain from using any flashing, strobe lighting or special *FX* that could cause seizures or stroke related conditions. Please refrain from using smoke machines.
